

Automate Regulatory Reporting

with Confluence® Omnia

Global Regulatory Challenges Abound

Firms are challenged to keep up with regulatory changes from SEC mandates to revised regulatory reporting frameworks throughout EMEA and APAC.

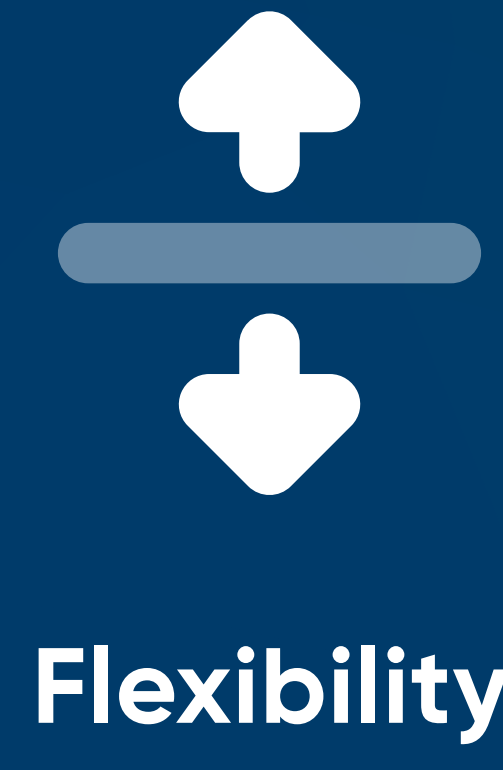

The operational strain from manual processes and repetitive tasks is intensifying, making regulatory compliance increasingly difficult to manage.

How can you stay in front of everything, in multiple jurisdictions?

Confluence Omnia for Global Regulatory Reporting

Confluence Omnia is a regulatory reporting platform designed to address the growing complexity of global compliance requirements. Omnia simplifies regulatory reporting with automation, improved accuracy, flexibility, and efficiency – freeing teams from manual burdens and reducing compliance risk.

Pillars of Productivity

Omnia's **single data front door** is built around three key pillars that enhance productivity, accuracy, and efficiency across all stages of regulatory reporting.

PREPARATION

Automate data integrations and calculations for accurate results.

Aggregate and transform data from multiple sources.

Automate regulatory calculations.

Create accuracy across reports.

FILING

Customize views for streamlined, precise submission management.

Adapt views for bulk or detailed filings.

Automate workflows to reduce errors.

Stay compliant with evolving regulations.

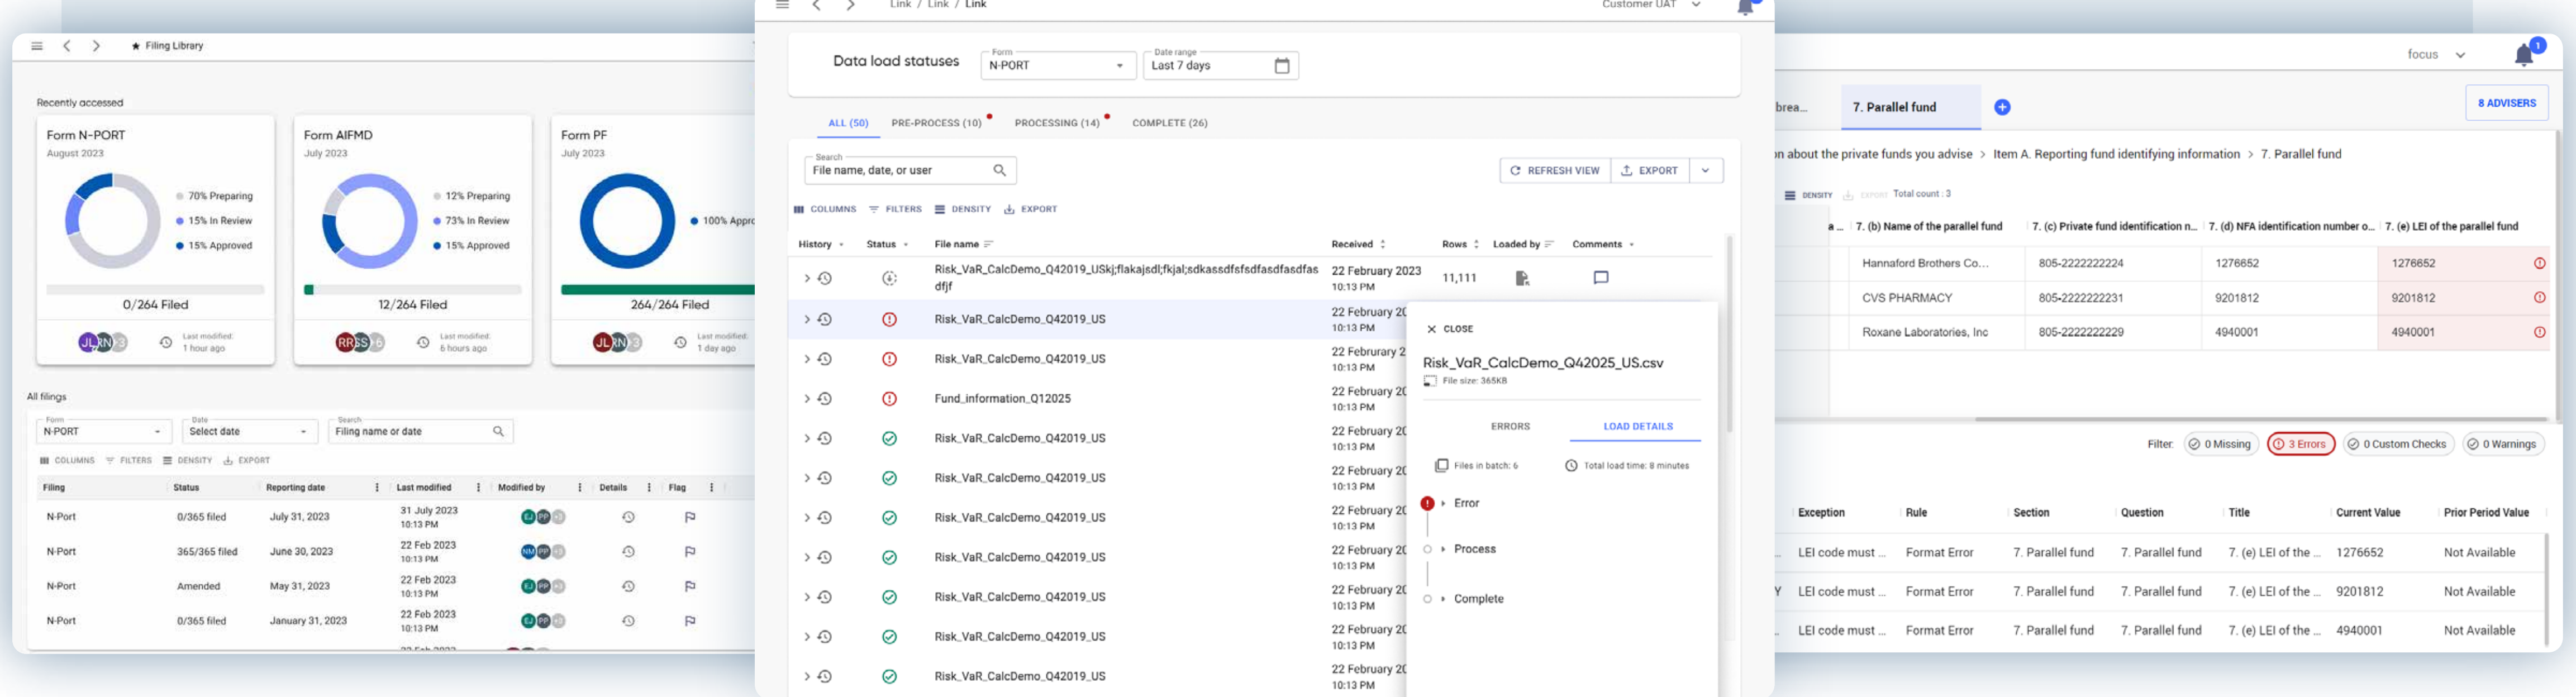

REVIEW

Track, validate, and approve filings with tailored workflows.

Monitor progress in real time.

Auto-validate data and flag issues.

Collaborate seamlessly across teams.

Want Help Managing Regulatory Requirements?

Outsource regulatory reporting with confidence—Omnia's Regulatory Managed Services combine cutting-edge software with a team of experts to handle filings from start to finish.

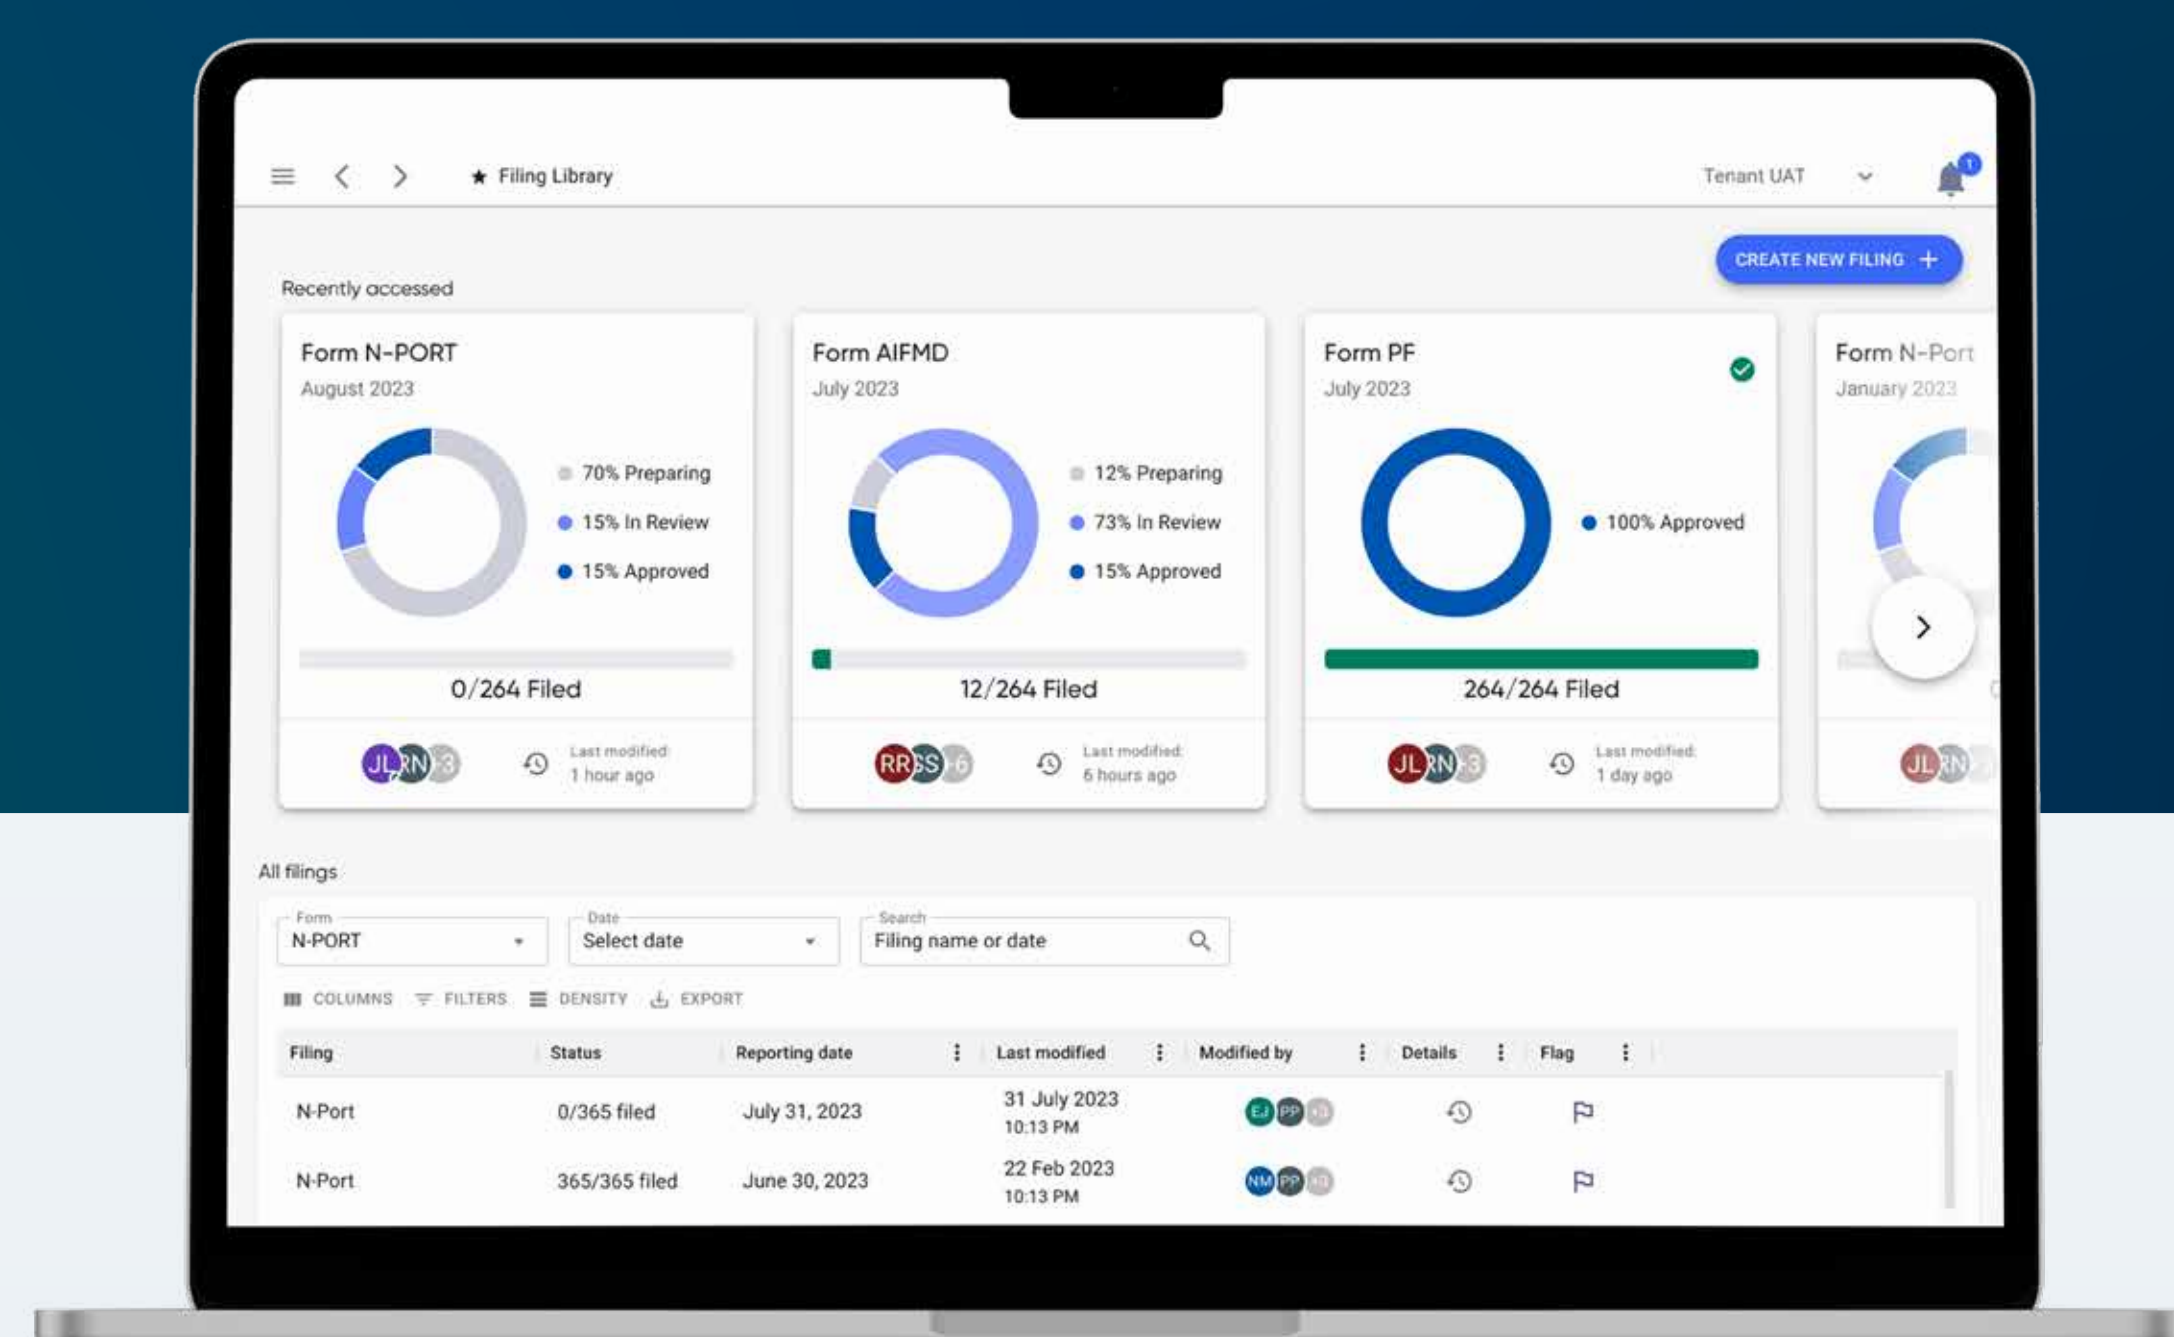

A recent survey revealed that **79%** of fund managers expect to increase outsourcing over the next 12 months, and **99%** expect to outsource within the next two years¹.

- Reduce operational burden**
Free your team from time-consuming filing tasks.
- Stay ahead of regulatory changes**
